Rules & Activities

Team agreement

What are the rules we want to introduce after doing this session?
How do we communicate and keep everyone up to date? How do we make decisions?
How do we execute and evaluate what we do?

Agreement: We all participate in the lectures, the
exams/quizzes, the meetings - if not possible we inform the
team
Each one of us is responsible to be up to date with the course
content
We ask the group for help - exchange our experience
speak up.
everyone is asked to participate in decisions -

The result is important - we want a good grade
(that motivates)

We set up regular meetings and we share
how much time each one has.

How do we communicate if something
goes wrong?

In order to make everyone "equal" we will not
meet in person due to the project.

Structured meetings with breaks

If something goes wrong (personally,
technically) we inform each other.

We make sure that we understand each other
, repeating things its other.

Main Goals: efficient
solution, have fun, work
with team spirit

Weaknesses & Risks

What are the weaknesses we have, individually and as a team?
What our teammates should know about us?
What are some obstacles we see ahead us that we are likely to face?

Need for structuring,
gets carried away easily
by new ideas

Time management
Interrupting and being
interrupted (more of a general
zoom problem)
Disagreements on decisions

many differing opinions it may be
hard to compromise, lack of
complete understanding of the
problem we are tackling,
