

Reserch:

American Ski Federation:

- Virtual Reality Glasses for skiers to practice the slope

Electric Snowmobils

Problems:

1. Optimize Daytrips and the travel to the region
2. Rules don't be followed (Ruleboard?)
3. Skiing not on slopes and destroy animal territory
4. Ski World Cup isn't famous (more viewers -> more money)
5. Skiing is to expensive for the regular consumer
6. Visitors produce to much CO2 for one Ski WC Event
7. There is no mobility to the Ski WC Events
8. No balance between success and responsible
9. Snow canons are not sustainable
10. *Skiing destroys the mountain*
11. *Waste of skiers in the Ski Resorts*
12. *Covid-19 Pandemic*
13. Cutting down trees for slopes
14. Energy waste of the cable cars

Main Problems:

- Rules don't be followed (Ruleboard?) + Skiing not on slopes and destroy animal territory
- Cutting down trees for slopes
- Energy waste of the cable cars

Solutions:

- Reforest trees
- Digital Board and App of the level of visitors
- App shows which slopes are crowded and closed
- App for rules
